ALL FOR OPEN-AIR TRANSIT.

THERE IS NO EXCUSE FOR THE DISA-REEABLE UNDERGROUND SYSTEM.

The Plan Proposed by The Sun Would Give to New York the Best System of Rapid Transit in the World, and No Other Would be Needed for Fitty Years.

An open-air rapid-transit route- an elevated Your-track road over the present New York Central tunnel in Park avenue, from the Har-lem River down to the Grand Central Depot, and a viaduct from the depot to the centre of the block between Second and Third avenue, and thence in as straight a line as possible down to the City Hall. This is the line which was proposed in THE SUN last Sunday, and it is apparent that the people want it and that they will not have the underground road the Rapid Transit Commissioners would force

All who have been questioned on the subject by reporters of THE SUN have declared un-equivocally that the proposed plan is the plan that will give to the city satisfactory rapid tran-sit with the least damage to property. There has not been a single dissenting voice. Even Mr. Steinway, the President of the Rapid Transit Commission, approves of it, and asserts with much positiveness that it is better than the underground plan that his Commission advocates. It is the ideal plan for rapid transit, he says; but he adds that it cannot be adopted without the cooperation of the New York Central Ballroad Company, which owns the Park avenue tunnel and which has vested rights in Fourth or Park arenue that run for fifty years. The Commission would have adopted such a plan, he says, if the New York Central

There is every reason to believe that the had proposed it railroad officials would cooperate in the plan

had proposed it.

There is every reason to believe that the grainead officials would cooperate in the plan if the matter was properly presented to them. They have taken no ground either for or sarinst it yet, and President Depew says they would consider the matter if it was properly bought up. The Commission has made no move toward getting the Central's cooperation. There is no reason now for further delay. Each side understands the other, and a meeting of some kind might result in the formal scientist of the plan. The plan which contemplates a dark and ill-ventilated tunnel should be dropped as nonsense.

Among the men interviewed yesterday by a Sun reporter was Mr. Orlando B. Potter. He says the plan proposed in The Sun is, above lorty-second street, the best plan and the only practicable plan that has been suggested: "Give your elevated roads a chance to make improvements and then build this central road proposed and New York will have the grandest system of rapid transit enjoyed by any city in the world. In two years a hundred millions of dollars will be added to the tax values of property. For fifty years the city will need no other system of transit. The road proposed could cortainly be built and in operation in two years. The value of property above Forty-second street would be speedily increased and nobody would be hurt. We can't carry people underground in this city. New Yorkers do not want to ride underground. The idea is un-American. The people have a right to light and to air. They will not tolerate any plan that will rob them of either. The streets are made for the people to walk in or ride in and over and not to burrow through. We can't afford to adopt any plan that will come if the people to go down into the bowels of the earth to get anywhere. With the cable roads on the surface and with a fully developed clevated system and this central road planned I say the city will ense. Hull-I cannot bearto think of boring a hole in the ground for any system of ropperty will be employed, and general pursue Mr. Potter favore a continuation of the ele-vation of the street structure from the Grand Central Depot down, using the streets instead of private property, as the proposed plan suggests.

THE TALE-HARVARD DEBATE. Yale's Representatives Chosen-Chauncey

NEW HAVEN, Feb. 13.—The competitive debate to decide who should be the third repre sentative of Yale in the coming debate with Harvard was held in Osborn Hall last evening, and this morning the judges. Profs. A. M. B. Adams, announced that this honor had been won by Julian Ingersoll Chamberlain. '94. of New

counced that this honor had been won by Julian Ingersoil Chamberlain. '84. of New Youlian Ingersoil Chamberlain. '84. of New York cit. Aside from this, which is considered as a first prize, a second and third prize of \$12 and \$9 respectively was awarded by the Yale Union. The second prize was won by George Feabody Steele, '92 (law), of Deuver, and the third prize was divided between Heavy Martindale kidd. '82. and Henry Riggs Liathone, '92. both of Albany.

The question debated was the same as the one to be used against Harvard. "Resolved. That immigration to the United States should be unrestricted." and in deciding the awards the committee took into consideration elecution, argument, and composition. The speeches were all forelile, and showed no small amount of labor and thought, and, with one exception, the negative side was treated by the twenty contestants.

The Hon. Chauncey 31. Depew has consented to occupy the chair in the coming Yale-Harvard debate, and at a late hour on Thursday avening a telegram was received from him setting March 25 as the date upon which it is to be held. The university is being canvassed for funds with which to meet the expenses of entertaining the Harvard representatives, and funcess. The Yale representatives are Mo-Quaid. '92, elected from the Yale Union, and Chamberlain, '94, appointed by competition.

Things Stolen at Motterdam, N. T., Found

Burglars broke into the house of William C. Mariette, bookkeeper of the Edison Electric Light Company of Schenectady, at Rotterdam, N. Y., on Sunday evening, Jan. 24, when the family were at church, and stole \$2,000 worth family were at church, and stole \$2,000 worth of lewelry and clothing. The police of this city were notified of the burgiary. Last Thursday night Detectives Foley and Mulholland as was man pawning a pair of cuif buttons in fitterstein's pawn office at Eighth avenue and Twenty-sighth street and arrested him. At folice Headquarters the man said he was William is, Lambert of 10 Varick place. The detectives went to the house and there arrested Lambert's roommate. James Van Kleeck. Mr. Markette was sent for and identified some of the stuff found in the room of the men as having been stolen from his house. He also identified Lambert as a man who used to be in his employ, and whom he discharged in November inst. At Jefferson Market yesterday Justice Diverturned the prisoners over to an officer from Schenectady, who will take them back to that place.

T. M'CANTA STEWART RESIGNS The Colored Lawyer Fleads Freezure of Business and Indigestion.

Mayor Boody of Brooklyn was surprised yesterday by the receipt of this: 'My DEAR SIR: Feeling that a pressure of private business, which seems harder because erly discharging my duties as a member o the Board of Education, and believing that some other citizen would serve more accept ably and efficiently. I hereby place my resignation at your Honor's disposal, and ask early

"Wishing your Honor much success in the management of the affairs of our city, I am, very respectfully, T. McCanta Stewart." Since the death of Dr. Philip A. White, about a year ago, Mr. Stewart has been the sole representative of the colored race in the Board of Education. He is a lawyer and for some years

Education. He is a lawyer and for some years has been an active worker and effective orator for the regular Democratic organization in Brooklyn, and his appointment to the Board of Education by Mayor Chapin as Dr. White's successor was satisfactory to the politicians as well as the colored citizens. He seemed to be popular with his associates in the Board. Mayor Boody said he much regretted Mr. Stewart's action and would send for him and try and induce him to withdraw his resignation. Joseph C. Hendrix, the President of the Board, said:

"I am certainly surprised at Mr. Stewart's resignation. I am not aware that Mr. Stewart's position was made uncomfortable or that he was subjected to any annoyances. He had his full share of patronage. He was on two committees—Colored Schools and Free Scholarships. I don't know that he had any difficulty with his colleagues. He certainly had none with me."

It is reported that the recent dinner given at the Montauk Club house to Health Commissioner Griffin and County Clerk Cottier on their retirement from the Board of Education by their former associates may have had something to do with Mr. Stewart's action. There were only two members of the Board, absent from that gathering. One was William Barthman, sgrainst whom open war had been declared by the majority of the members, and the other was Mr. Stewarts action in his letter to the Mayor.

Mr. Stewart was formerly Minister to Liberia, and is now called one of the leading negro lawyers in the United States.

HOLY TRINITY MUCH ALTERED.

The Idea Was to Make It Look More Like a Church Than It Used to Look.

For the last seven months extensive repairs and alterations have been in progress the interior of the Episcopal Church of the Holy Trinity, Madison avenue and Forty-second street, and this morning the church is to entire character of the interior has been changed. The old galleries, which were elliptical in form and extended far out over the main floor, gave a theatrical appearance to the church. These have been replaced by narrow galleries, with carved caken fronts forming three sides of a rectangle. The chancel is entirely changed. The central panel of the reredes is a mosaic representing Christ enthroned, surrounded by four archangels. This is a memorial gift by Mrs. Clara Bacon. It was executed by Italian workmen under the eye of the designer. Charles P. Lamb, and is the largest mosaic of the kind in the country. The Gothic screen on either side of the mosaic and the new choir stall are all of solid cak, richly carved. The chancel floor as well as that in the body of the church has been laid in mosaic. The chancel has been doned over for a sounding board on account of the increased size of the auditorium. The roof has been painted a sky blue, dotted with gold fleurs de lis. The blue gradually fados away into the terra cotta of the walls.

By next spring the rector, the Rev. E. Walpole Warren, hopes to blot out the colors on the exterior, which have gained for the church the sobriquet of "Church of the Holy Olicloth." the main floor, gave a theatrical appearance to

Convention of Auti-Lottery Republicans. New ORLEANS, Feb. 13.—The Warmoth or Custom House Republican Convention will meet here on Wednesday. The Warmoth wing which is anti-lottery in its tendencies, was disposed at first not to put up a State ticket, but posed at first not to put up a State ticket, but to support the ticket nominated by the Anti-Lottery Democrats, believing that in this way the constitutional amendment extending the charter of the lottery company could be defeated. Now, however, that the lottery proposition has been withdrawn, a full Republican ticket will be named, headed by Mr. Pearl Wight, a merchant of New Orleans. The ticket will be equally divided between whites and negroes, whereas the first Republican ticket named contained the names of but two negroes.

James Lacompt, who died at Southard Cumberland county, on Friday, was said to be the tallest man in the State of New Jersey. He was 6 feet 8% inches high.

A Wonderful Machine.

like every other machine he wears out by friction. It is

said that he is born again every two or three years. His

body is virtually re-made from food. To retard this

making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time

to recuperate. The process of making anew is so accel-

erated by purging with Brandreth's Pills that a new

man, as it were, may be made in two or three months,

and the change in the mechanism is such that the worn

out part is replaced by the new without the usual running

down of the entire machine. You don't have to stop for

repairs. Purge away with Brandreth's Pills the old,

diseased and worn out body. They are purely vegetable,

Sold in every drug and medicine store, either plain or

absolutely harmless, and safe to take at any time.

There is no doubt that man is a fine mechanism, but
